

## DWF Drinking Fountain

### DRINKING FOUNTAIN & BOTTLE FILLING STATION

#### DESCRIPTION

- Model DWF is our floorstanding drinking fountain and bottle filling station
- This is a multipurpose unit providing a drinking water fountain with a convenient recessed bottle filling station below
- The bottle filling opening is sized to take all common 0.5, 0.75 and 1.0 litre bottles
- WRAS approved water fittings
- Grade 304 stainless steel, 1.2mm thick
- Rounded corners for safety
- Hygienic and robust
- This unit has an integral full height shroud to conceal the supply and waste pipework
- The shielded shelf-closing bubbler valve is positioned for ease of use and the bottle filler is activated by a simple push button self-closing time flow tap
- This unit has rear access for connection to services with a lockable side access panel

#### FEATURES

- WRAS approved drinking water bubble tap
- WRAS approved press button time flow bottle filling tap
- 32mm flush grated waste fitting to fountain and bottle filler
- Flexible waste pipes
- Drinking fountain bowl with anti-drip edges
- Floor and back to wall fixing points
- Side access panel with lock and key
- Rear cut out for connection to services
